

AVIATION EXPO CHINA 2017 (17TH EVENT)

19–22 September 2017

China National Convention Center, Beijing, China

The Platform for New Products, Technology
and Ideas Launching in the Chinese
aviation market

www.beijingaviation.com

CHINESE AVIATION MARKET

IMPORTANT NUMBERS

CIVIL AVIATION

Global Market Forecast 2016–2035:

Chinese commercial aircraft fleet will increase to 6783 passenger aircraft.

718 for cargo transportation.

5838 for passenger transportation

1582 aircraft retired .

AIRPORT & ATC

By the end of 2015, 210 airports in China

From 2016:

32 New constructed airports

140 Airports expansion

19 Airports relocation

51 Research phase airport, 46 new construction, 5 relocation

By 2020, China will have more than 260 airports

ENGINE

Aero Engine Corporation of China (AECC), was established on August 2016, with registered capital of 50 billion fostering more dynamic business opportunities in the entire industrial chain of engine industry

MRO

Currently, the world's MRO market capacity is about US\$56 billion. According to a recent forecast, by 2034, the global commercial fleet is expected to increase from 19,000 aircraft to 40,000 aircraft, which means 35,000 new aircraft will be in service and more than 14,000 aircraft will be eliminated. While actively developing the capabilities of maintaining a new generation of aircraft, maintenance–service enterprises also need to selectively and gradually terminate the MRO services for old aircraft. Therefore, the overall MRO market is expected to more than double in the next 20 years. With the continuation of China's low–altitude airspace policy, the General Aviation MRO market will seize new opportunities for development.

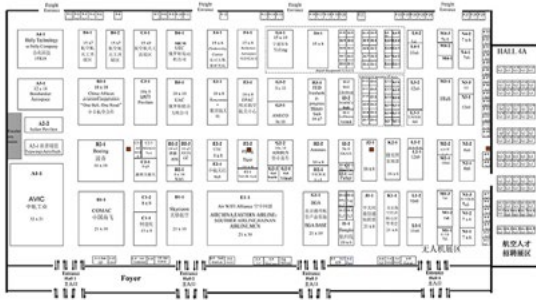

Beijing New International Airport (DaXing, Beijing)
Total Investment: about 80b RMB

EXHIBITION + CONFERENCES

A series of high-level professional conferences
Explore market opportunities and exchange business ideas in China's aerospace and aviation development

Exhibition Area: 2500 Sqm

Exhibition

LIMITED SPACE AVAILABLE

Because of great response from the domestic and international aviation community, support has been overwhelming and 70% of the exhibition spaces are now reserved. In addition to the four current exhibition halls, this year's Expo has expanded to Hall 4A and to outdoor exhibit spaces in order to accommodate more exhibitors.

Conferences

The 3rd China Aeronautical Science and Technology Conference (CASTC 2017)

September 19-20, 2017

- Top aviation conference in China.
- Organized by the Chinese Society of Aeronautics and Astronautics (CSAA)
- One Main Conference + 7 Sub-Conferences
- 800+ renowned experts, leaders, and scholars from domestic and overseas scientific research institutions, enterprises, and institutions

China Airport New Technology Innovation and Development Conference 2017

September 20, 2017

- Jointly organized by the China Civil Airport Association (CCAA), the International Airport Transport Association (IATA), and the Organizing Committee of Aviation Expo/China
- Conference theme, New Technology Leads Airport New Development, relates to the latest trends in Airports IT System, Green airport and General Aviation Airports construction and development, and other key industry topics.
- 300+ decision-makers and engineers from 180+ airports across China, including those from new constructed airports, newly expanded airports and relocation airports. In addition over 100+ GSE enterprises will be in attendance.
- 600+ delegates from the government, airports representatives and enterprises to attend the 2016 event.

The 7th China International UAV System Conference & Exhibition (UAS 2017)

September 19-22, 2017

- Domestic and international participants will showcase the latest cutting-edge technology
- Speakers will provide insights and share their industry knowledge and experience.
- The sub-forum discussions will focus on the applications of UAVs, in particular, topics in law enforcement, military operations, agriculture and forest protection, and patrol duty
- Other 9 Professional Conferences, including Aviation IT Conference, China Aviation and Aerospace Products Testing Technology Forum, Aero Engine Conference, Air WIFI Alliance Conference, China International General Aviation Development Conference, International Aviation and Aerospace Industry and Financing Combination Conference, MRO China will be held concurrently with Aviation Expo/China 2017.

B2B + HIGH-LEVEL MEETINGS

With 32 years of accumulated knowledge and experience, we are continuously striving to

ACHIEVE YOUR BUSINESS GOAL

B2B & Customized Meeting

China's diversified aerospace and aviation industry offers significant market opportunities. A customized B2B platform presents an ideal and unique opportunity before, during, and after Aviation Expo/China for international and domestic SMEs entering this lucrative market to reach out upstream and downstream along the aerospace and aviation industry value chain in China.

To arrange your meeting with the targeted companies and persons, please let us know your request today.

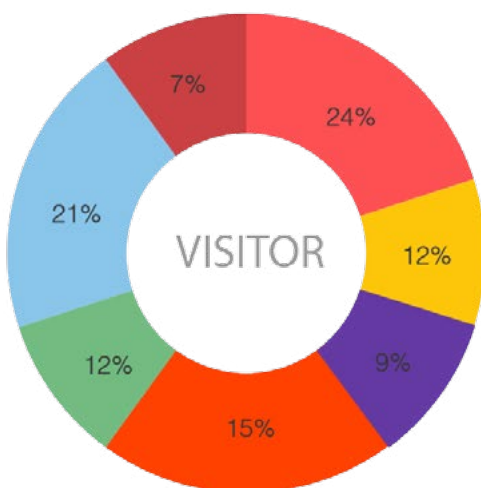

High-Level Meeting

This is specifically designed to meet the needs of international aerospace and aviation enterprises as well as trade associations. Beijing enjoys unique political, economic, and cultural advantages. Featuring the globe's largest international aviation hub, the city is in an important geographical location on par with Paris, London, Moscow, and Hamburg, and is the site of such world-renowned enterprises as AVIC, Airbus, Boeing, AMECO, Air China, BCIA, along with top-level Chinese military institutions and government units, including the National Development and Reform Commission, Ministry of Industry and Information Technology, Civil Aviation Administration of China, and the China National Space Administration.

With the success of 16 previous Aviation Expo/China events to draw on, the organizing committee has established close working relationships with these prominent aviation organizations.

Visitors Profile

- Aircraft Manufacturing and Maintenance (24%)
- Government (7%)
- Airline (21%)
- Research Institute (12%)
- Agency and Distributor (12%)
- Airport (15%)
- Military (9%)

The exhibition lasted for 4 days with 26,000 professional visitors, 107 media representatives attended.

VENUE & AFTER THE CONVENTION

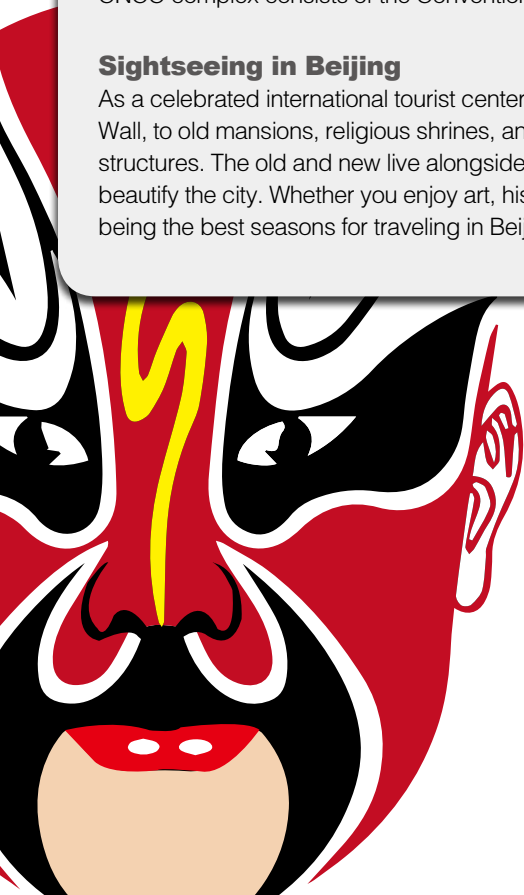

CNCC

China National Convention Centre (CNCC) is China's most versatile international conference venue ideal for congresses, meetings and exhibitions. CNCC's center-piece is its nearly 100 meeting rooms of various sizes equipped with the most advanced AV facilities. The 6,400 sqm plenary hall is able to cater to 6,000 delegates. The 23,000sqm exhibition hall with only three pillars can be easily divided into 4 self-contained acoustically independent sections, 5,500sqm each.

Capturing the heart precinct of Beijing Olympic Green, China National Convention Center is right next to the Bird Nest (China National Stadium for the Olympics opening and closing ceremony), the Water Cube (National Aquatics Center) and National Indoor Stadium. CNCC complex consists of the Convention Center, CNCC Grand Hotel, InterContinental Hotel and two office buildings.

Sightseeing in Beijing

As a celebrated international tourist center, Beijing is filled with spots of historical importance, from the Forbidden City and the Great Wall, to old mansions, religious shrines, and traditional hutong alleyways. Classical architecture is gracefully blended with modern structures. The old and new live alongside in peaceful harmony. More importance is placed on greenery and parks, trees, and flowers beautify the city. Whether you enjoy art, history, entertainment, or nightlife, Beijing is a must-see destination with Spring and Autumn being the best seasons for traveling in Beijing.

AVIATION EXPO / CHINA 2015 REVIEW

Expo Review

The last Aviation Expo / China 2015, with an exhibition area of 22,000 sqm gross, attracted 268 exhibiting companies from 18 countries and regions showcased a variety of exhibits, held 25 technology releases and press releases and 9 advanced forums. The exhibition lasted for 4 days with 26,000 professional visitors, 107 media representatives attended.
