### Chinese New Towns Negotiating Citizenship and Physical Form

Promoted by Politecnico di Torino and the Cultural Institute at the Embassy of Italy in Beijing  
Curated by Anna PAGANI | EPFL    Maria Paola REPELLINO | Politecnico di Torino

The open seminar CeNTO aims to stimulate a debate around the possible exchange between East and West: Are Chinese New Towns still reworking physical and functional models coming from the West? And, in a reciprocal perspective, what can the international community learn from such recent urban practices? The starting point of the discussion will be the short documentary "What can Europe learn from China?", produced by CeNTO team, interviewing western architects, professors and scholars.

Chair: **Michele BONINO** | Politecnico di Torino

Discussants: **Linda VLASSENROOD** | International New Town Institute
